## TAKE IT TO THE CROSS

### Verse 1

You never had a reason to ever turn to Jesus  
You've always faced the darkness on your own  
But now this pain is stronger, this time it's lasted longer  
Than any hurt you've ever known  
You can't imagine taking one more step if you have to  
take it all alone

### Chorus

Take it to the cross, fall down on your knees  
Lay your burden there, leave it at His feet  
No heartache is too great, no worry is too small  
Love and mercy waits at the altar of His grace  
Take it to the cross

### Verse 2

I know just how you're feeling, the road that leads to healing  
That's one that I've been down before  
It's paved with His forgiveness, reminding us He's with us  
Through every sorrow, every storm  
Take it from someone who knows firsthand  
When you can't take it anymore

### Chorus (twice)

Take it to the cross, fall down on your knees  
Lay your burden there, leave it at His feet  
No heartache is too great, no worry is too small  
Love and mercy waits at the altar of His grace  
Take it to the cross

### Ending

No heartache is too great, no worry is too small  
Love and mercy waits at the altar of His grace  
Take it to the cross  
Take it to the cross
