

Sunday School Topics

Welcome to the Sunday School Resources page. Some of our Sunday School teachers choose to provide materials from their classes in an online format. This may include downloadable handouts, resources, and mp3 recordings of the lessons. Previous topics and archives of many of the lessons are listed on the left side of this page for you to download.

We're starting an interesting study in the fall of 2019. Roger Tuinstra will be teaching lessons from the Minor Prophets. These are often neglected books of the Bible, but have important teaching for us all. We encourage every Christian to be actively involved in the learning opportunities provided by the local church. See you this Sunday!
